PROFIL

Independent and enthusiastic, I am eager to join your company and contribute my skills to the team.

FORMATION

2025 - In progress

École d'ingénieur - ENSEEIHT - Toulouse - Digital science department

2023 - 2025

Prépa Toulouse Transition - Labège - Choice of mathematics and computer science theme in S4

2021 - 2023

Lycée Jean Favard - Guéret

Baccalauréat Générale : High Honors, with specializing in Mathematics and Engineering Science.

EXPERIENCE

internship of Prépa

04/2025 - 06/2025

DSI de l'Université de Toulouse - Toulouse

This was a new approach in the world of work. I gained a great deal of autonomy and rigor, but I also developed my skills in Ansible while learning how to use Linux and Debian operating systems.

Olympiade de SI Grenoble - Grenoble

03/2023 - 05/2023

Awarded at the National Engineering Science Olympiads in 2023 for the project with the best simulation. This taught me teamwork and project management skills.

Agent vacataire

08/2022 - 08/2022

ENSEEIHT - Toulouse

This was my first introduction to the world of work, which allowed me to learn the essentials about working life.

internship of Seconde

03/2021 - 03/2021

IRIT - Toulouse

Discussions with the teacher-researcher to learn about his profession and understand how the company works. But it also allowed me to learn the basics of C#.

internship of troisième

05/2020 - 05/2020

IRIT - Toulouse - Stage

They taught me the basics of computer science in Python and Java, but they also helped me figure out what I wanted to do professionally.
